Skills Development Specialists presents: **Fundamentals of Supply Chain Management**

Why this course?

In today's fast changing business environment, the need for companies to provide services and products quicker, more efficiently, to the right place and at the right time, has become imperative. Customers want a service that is convenient and innovative whilst spending less money, time and there being less risk involved. With its emphasis on team effort, this is the perfect course to introduce learners to supply chain management.

Who should attend?

All role players in the supply chain.

Upon completion of this course, learners will be able to:

- Understand the supply chain management language
- Display knowledge and understanding of inventory management and planning
- Display knowledge and understanding of materials handling e.g. packaging, unitisation and warehousing
- Communicate regarding economic and financial considerations
- Display knowledge and understanding of the role of the freight logistics provider
- Source, import, apply postponement logistics and distribute a product to the end user.

Duration: 10 weeks, alternate Saturdays, 08h00 to 13h00 **Investment:** R8 050 (Excl. VAT)

SDS Certification: Students who successfully complete the SDS final examinations will receive the industry respected SDS Certificate of Competence.

The skills acquired on this course are based, inter alia, on the outcomes of the following unit standard:

US 244025 Apply fundamental concepts and principles of supply chain management (20 credits)
(NQF 5)
